# PRIVACY BY DEFAULT

A CONCEPT FOR PRIVACY IN A WORLD WITH THE INTERNET OF THINGS

**Missing parts for a world with ambient intelligence, that I would want to live in.**

# PREAMBLE

# **SECURITY IS FUNDAMENTAL**

it isn't really worth talking about privacy  
in an insecure environment

# **IT'S ALL ABOUT SOCIETY**

and how technology is used to help shaping it.

**AND IT'S ABOUT BUSINESS**

Folgen

## 'Smart dildo' was spying on my vagina, woman claims

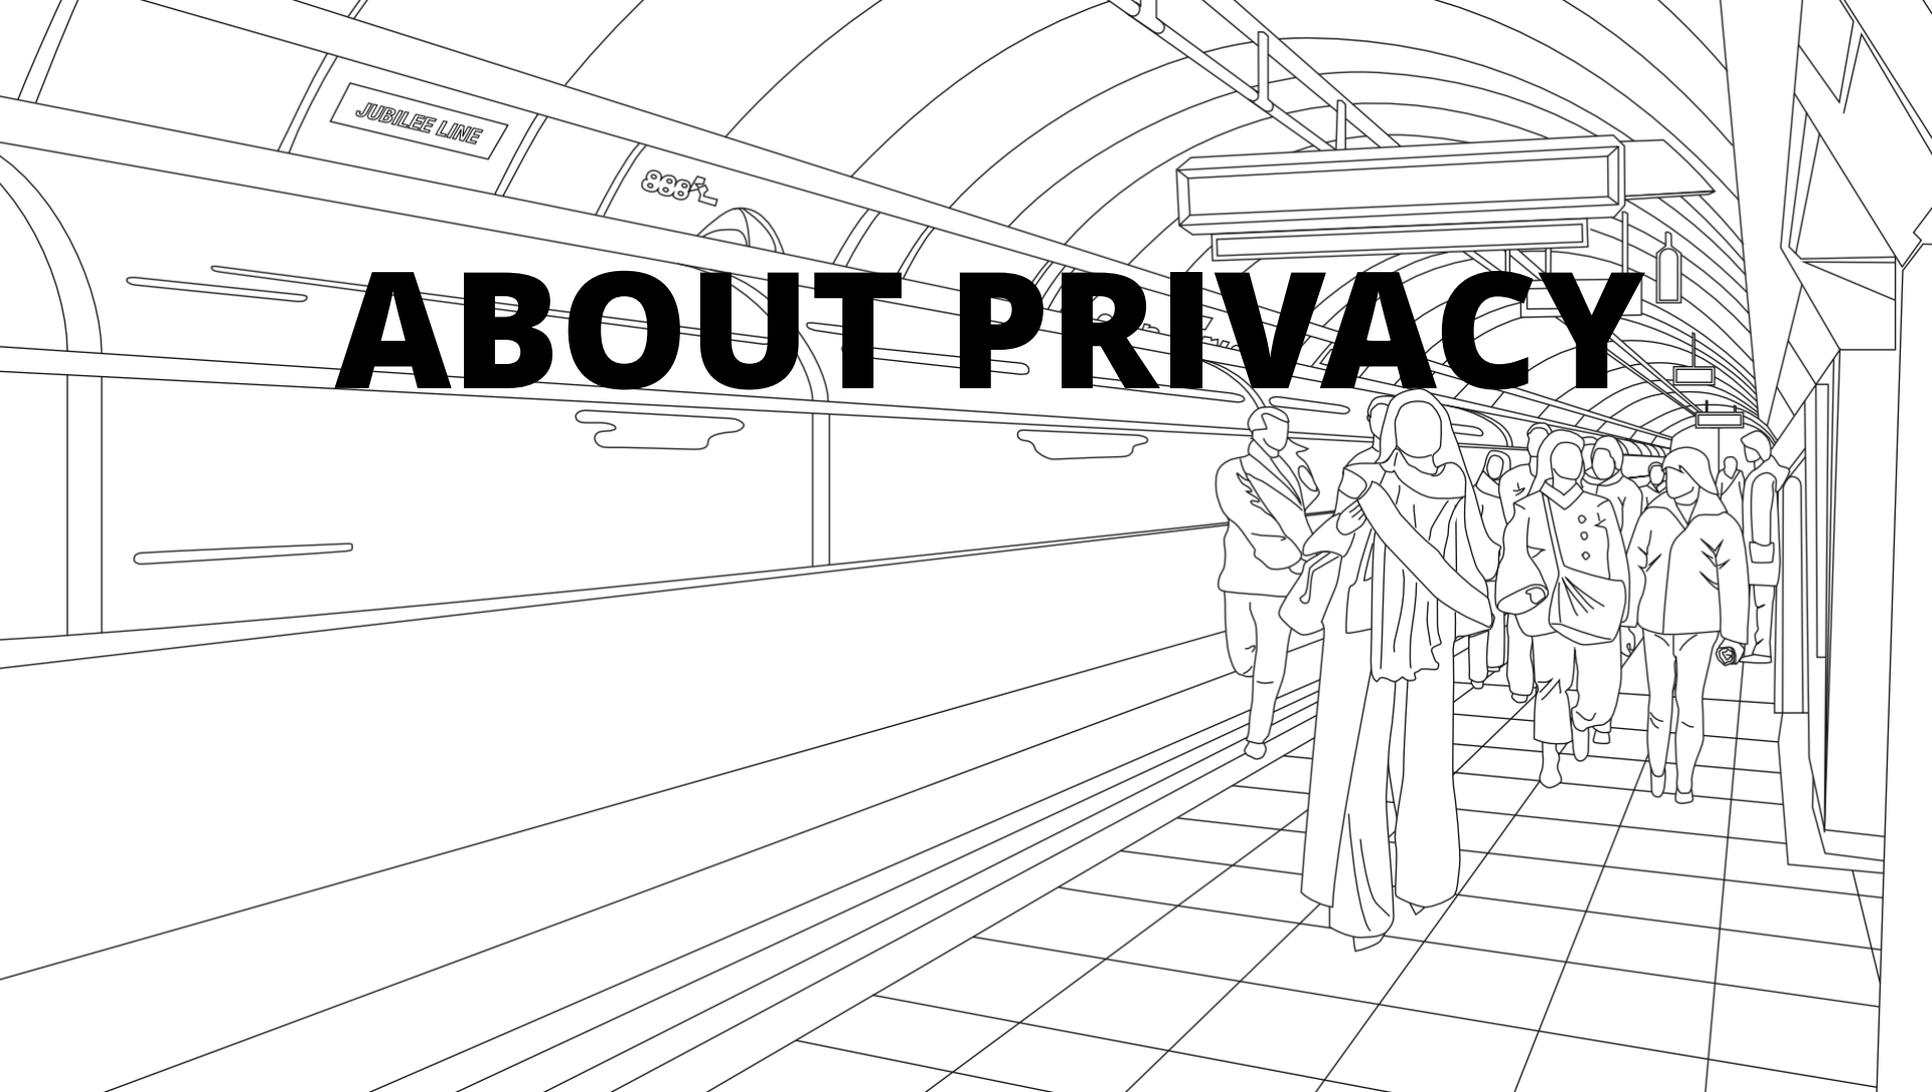

**'Smart dildo' was spying on my vagina, woman claims**

Could someone have compromised the back end?

[metro.co.uk](https://metro.co.uk)

# ABOUT PRIVACY

**you VERSUS the others**

# **THE RIGHT TO BE LET ALONE**

*The Right to Privacy (Brandeis & Warren)*

*Harvard Law Review, 15 Dec 1890*

## **LIMITATIONS TO THE RIGHT TO PRIVACY**

1. The right to privacy does not prohibit any publication ... which is of public ... interest

4. The right to privacy ceases upon the publication of the facts by the individual, or with his consent.

**Would you hand over your Facebook-  
Login to a stranger?**

# Would you hand over your Facebook-Login to a stranger?

At JFK Airport Immigration you will.

**you AND the others**

“Each individual is continually engaged in a personal adjustment process in which he balances the desire for privacy with the desire for ... communication ...”

*Alan Westin in Privacy and Freedom, 1968*

# STATES OF PRIVACY

*according to Alan Westin*

**SOLITUDE** *privacy of individuals*

**INTIMACY** *privacy of groups*

**ANONYMITY** *unidentifiability in public*

**RESERVE** *(psychological) barriers / resilience*

# STATES OF PRIVACY

*according to Alan Westin, extended by me*

**SOLITUDE** *privacy of individuals*

**INTIMACY** *privacy of groups*

**ANONYMITY** *unidentifiability in public*

**RESERVE** *(psychological) barriers / resilience*

---

**PSEUDONYMITY** *choice of identification*

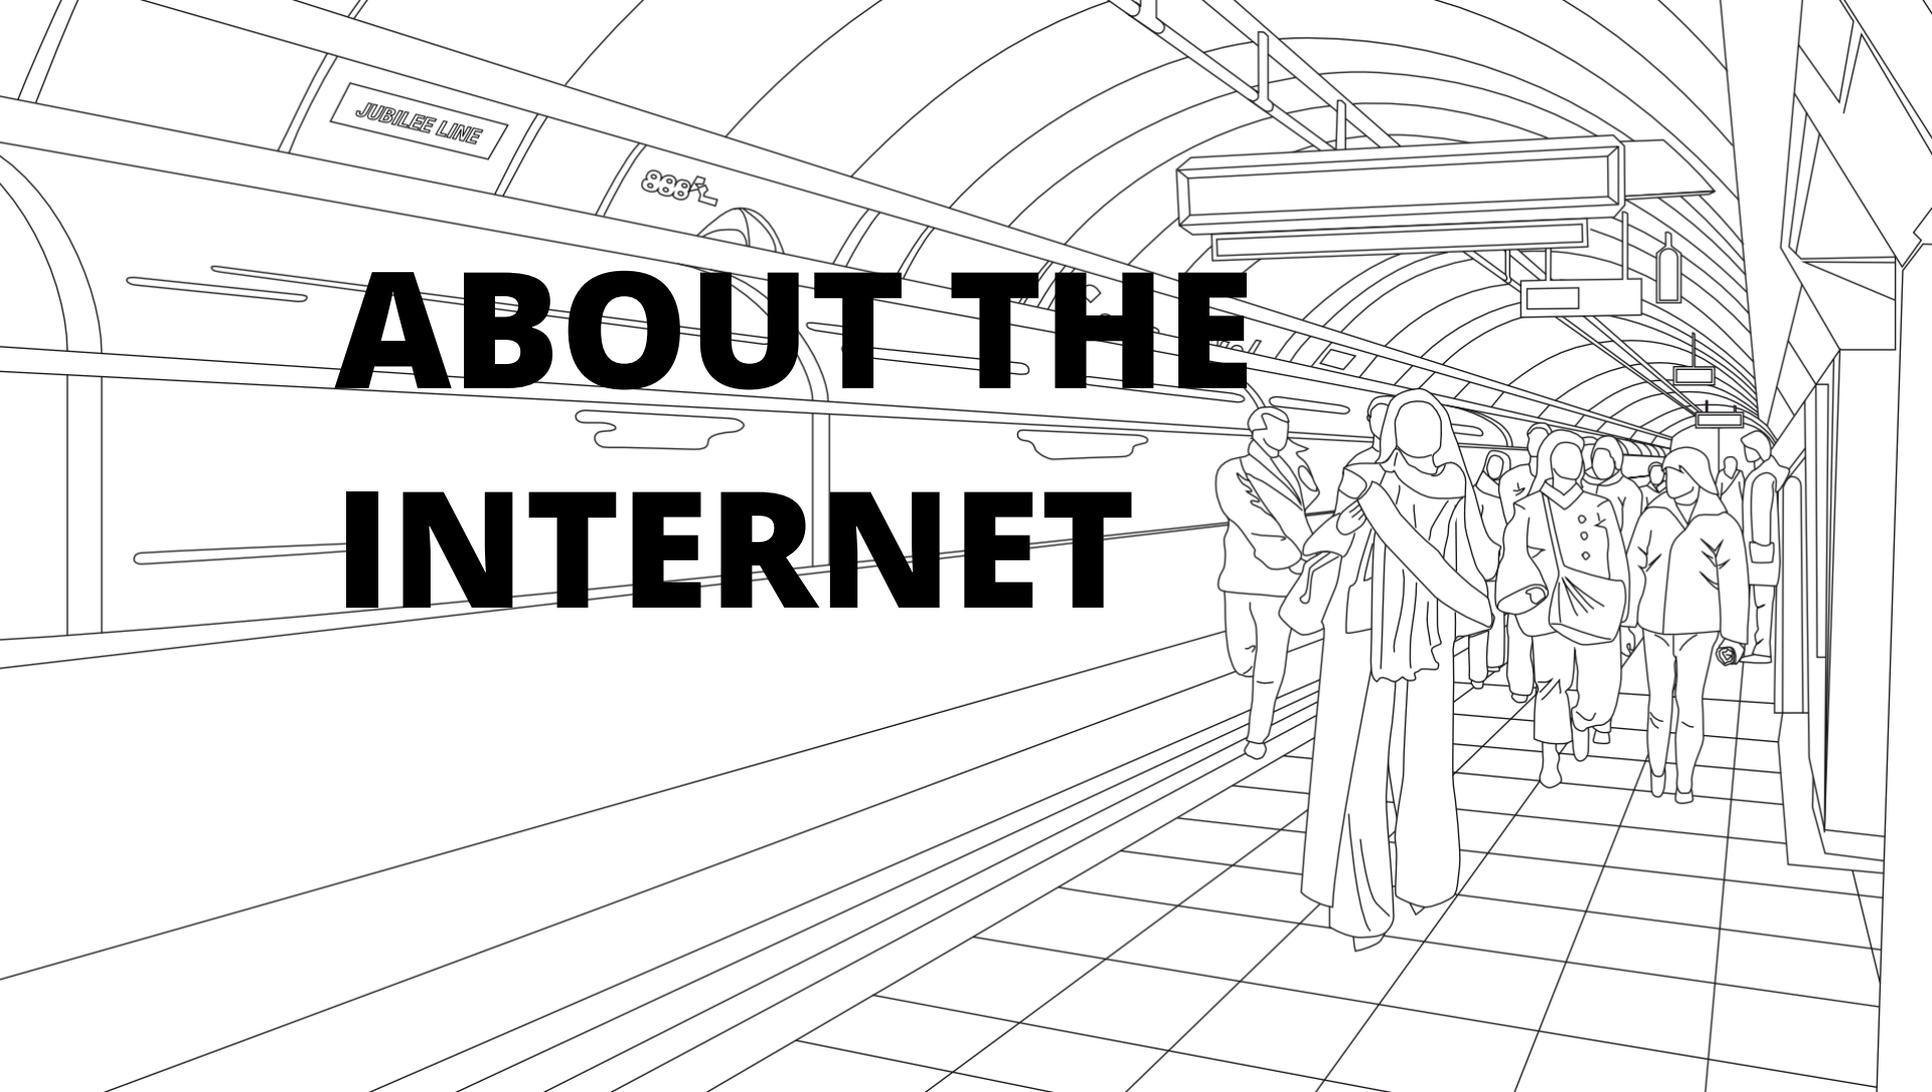

## **Article 12**

### **Universal Declaration of Human Rights**

No one shall be subjected to arbitrary interference with his privacy, family, home or correspondence, nor to attacks upon his honour and reputation. Everyone has the right to the protection of the law against such interference or attacks.

<http://www.un.org/en/universal-declaration-human-rights/>

**ABOUT THE  
INTERNET**

**THE INTERNET  
IS BROKEN.**

A photograph of a man in a dark jacket and light pants standing on a small stage or podium, addressing a large crowd of people in a park-like setting. The background shows trees and a street lamp. The text "the internet is not a public place" is overlaid on the image, with "not" in red.

**the internet is not  
a public place**

A photograph of a living room with a desk, bookshelf, and sofa. The room is dimly lit, with light coming from a large window. A desk with a computer monitor and laptop is on the right. A bookshelf filled with books is on the far right. A sofa with cushions is on the left. A coffee table is in the foreground. The text 'Facebook is Mark Zuckerberg's living room.' is overlaid in large white font.

# Facebook is Mark Zuckerberg's living room.

His living room, his rules.

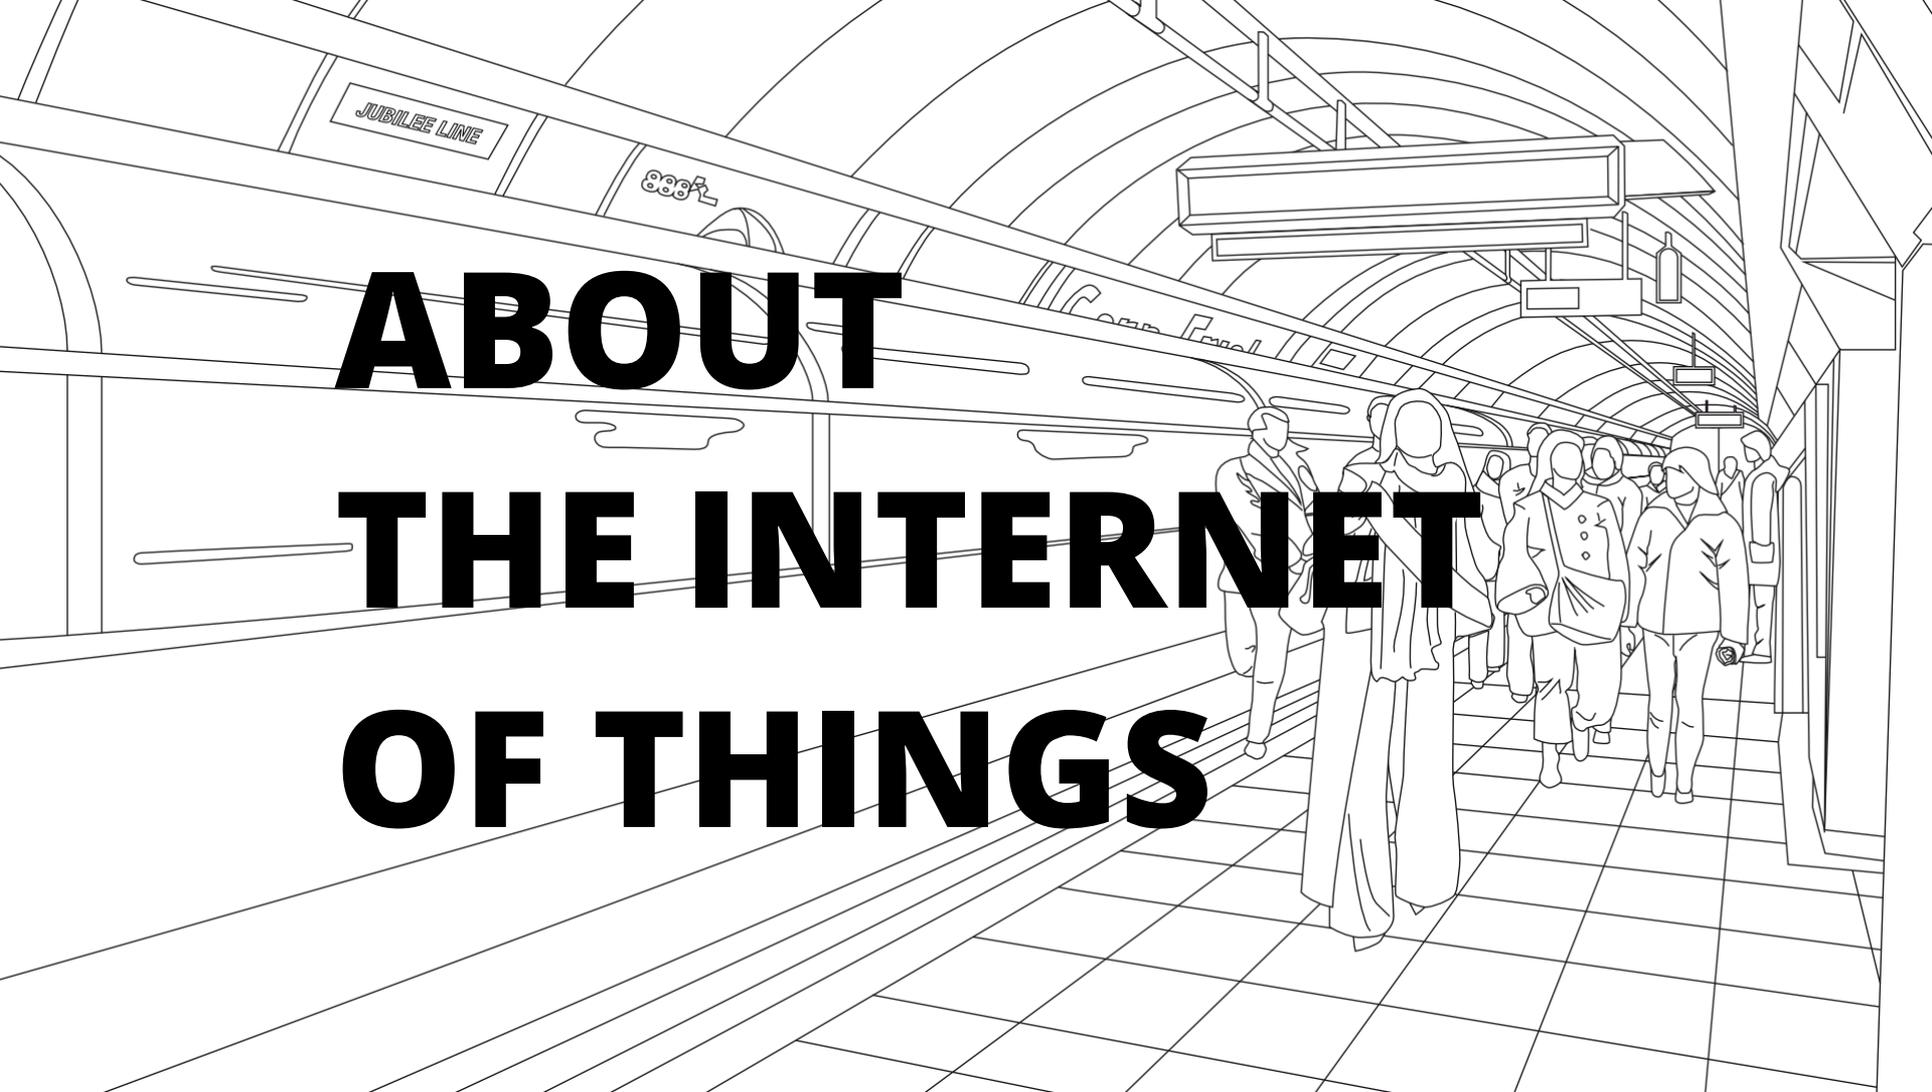

**the internet is not free**

neither as in freedom, nor as in free beer

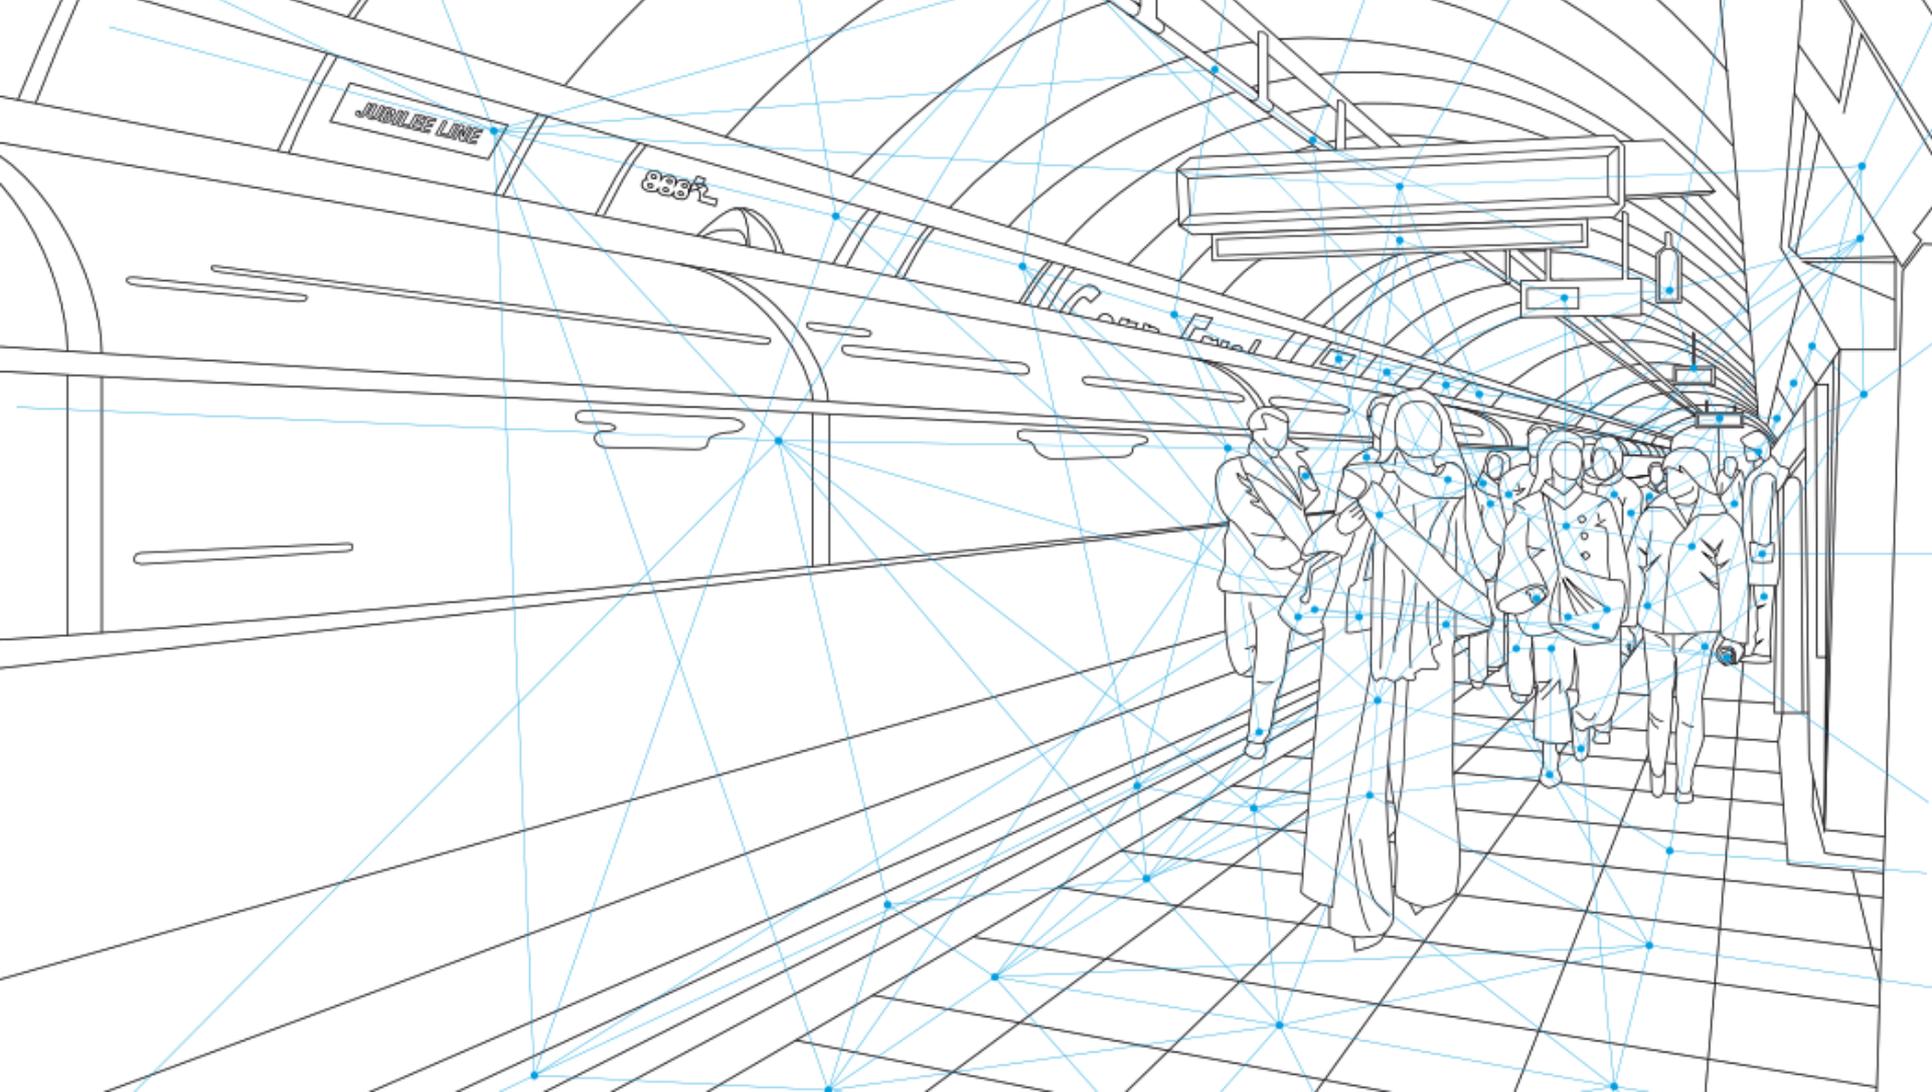

**remember the fight for  
net neutrality?**

**and it's getting worse**  
with the Internet of Things

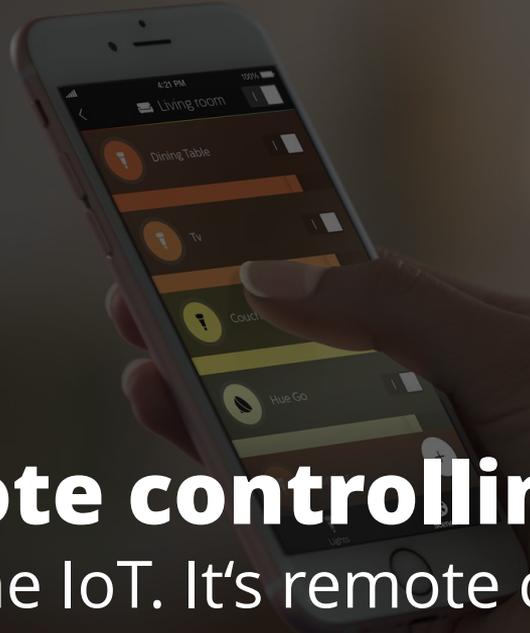

**ABOUT  
THE INTERNET  
OF THINGS**

**Remote controlling your lightbulbs,**  
is not the IoT. It's remote controlling your lightbulbs.

# devices that need a cloud connection

are not the Internet of Things. That's just DRM for the physical world.

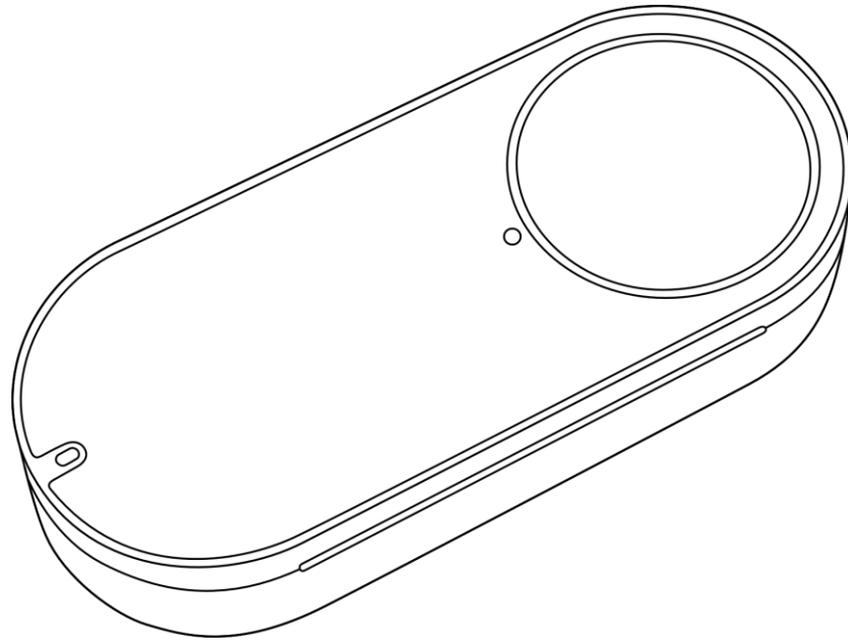

## Be careful of what you say in front our Smart TV, warns Samsung

By [Ryan De Souza](#) on February 16, 2016 [✉ Email](#) [❤ @hackread](#) [🔥](#) [NEWS](#) [PRIVACY](#) [SAMSUNG](#) [SURVEILLANCE](#)

***BEWARE OF SAMSUNG SMART TVS—VOICE RECOGNITION COULD BE RECORDING AND SHARING YOUR PRIVATE CONVERSATIONS***

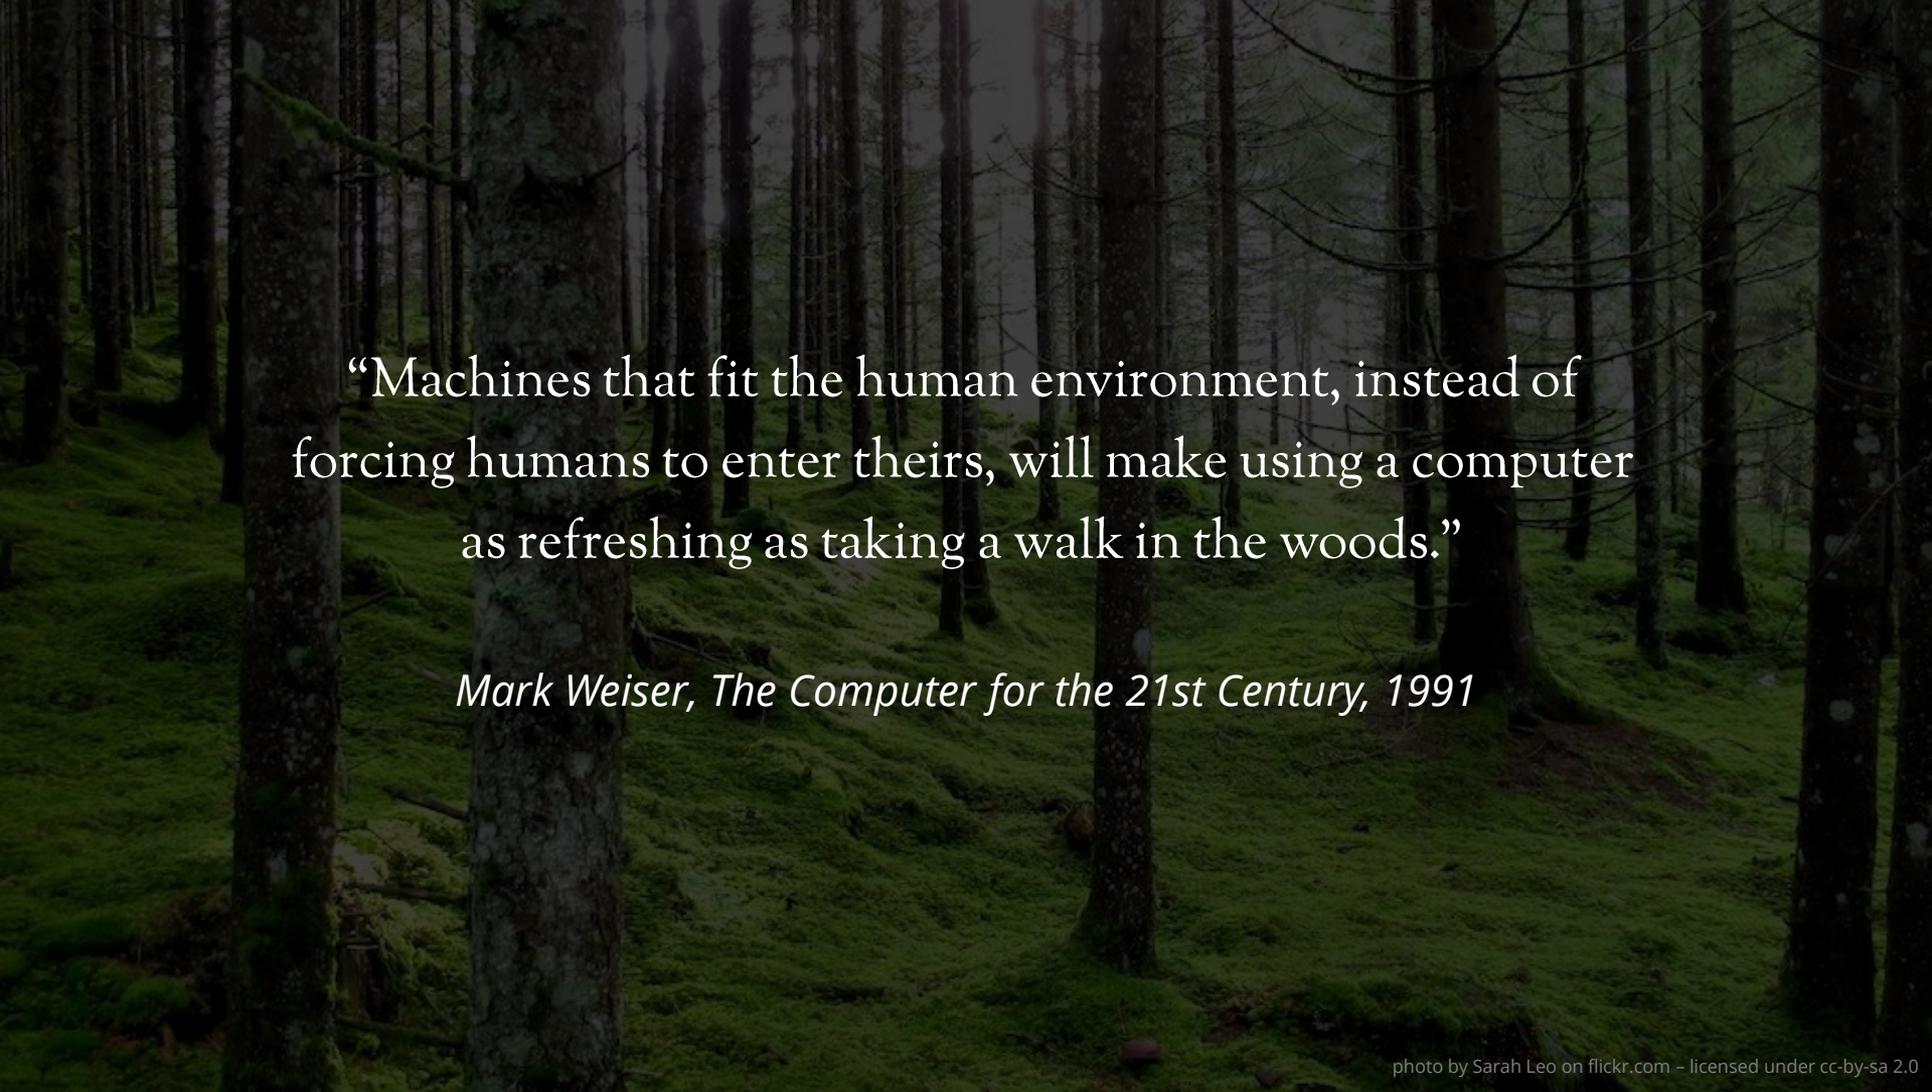

Digital age has brought along countless blessings and conveniences for the consumers but there are quite a few dangers associated with the **Internet of Things (IoT)** that are hard to ignore.

**we have reached zero effective cost**

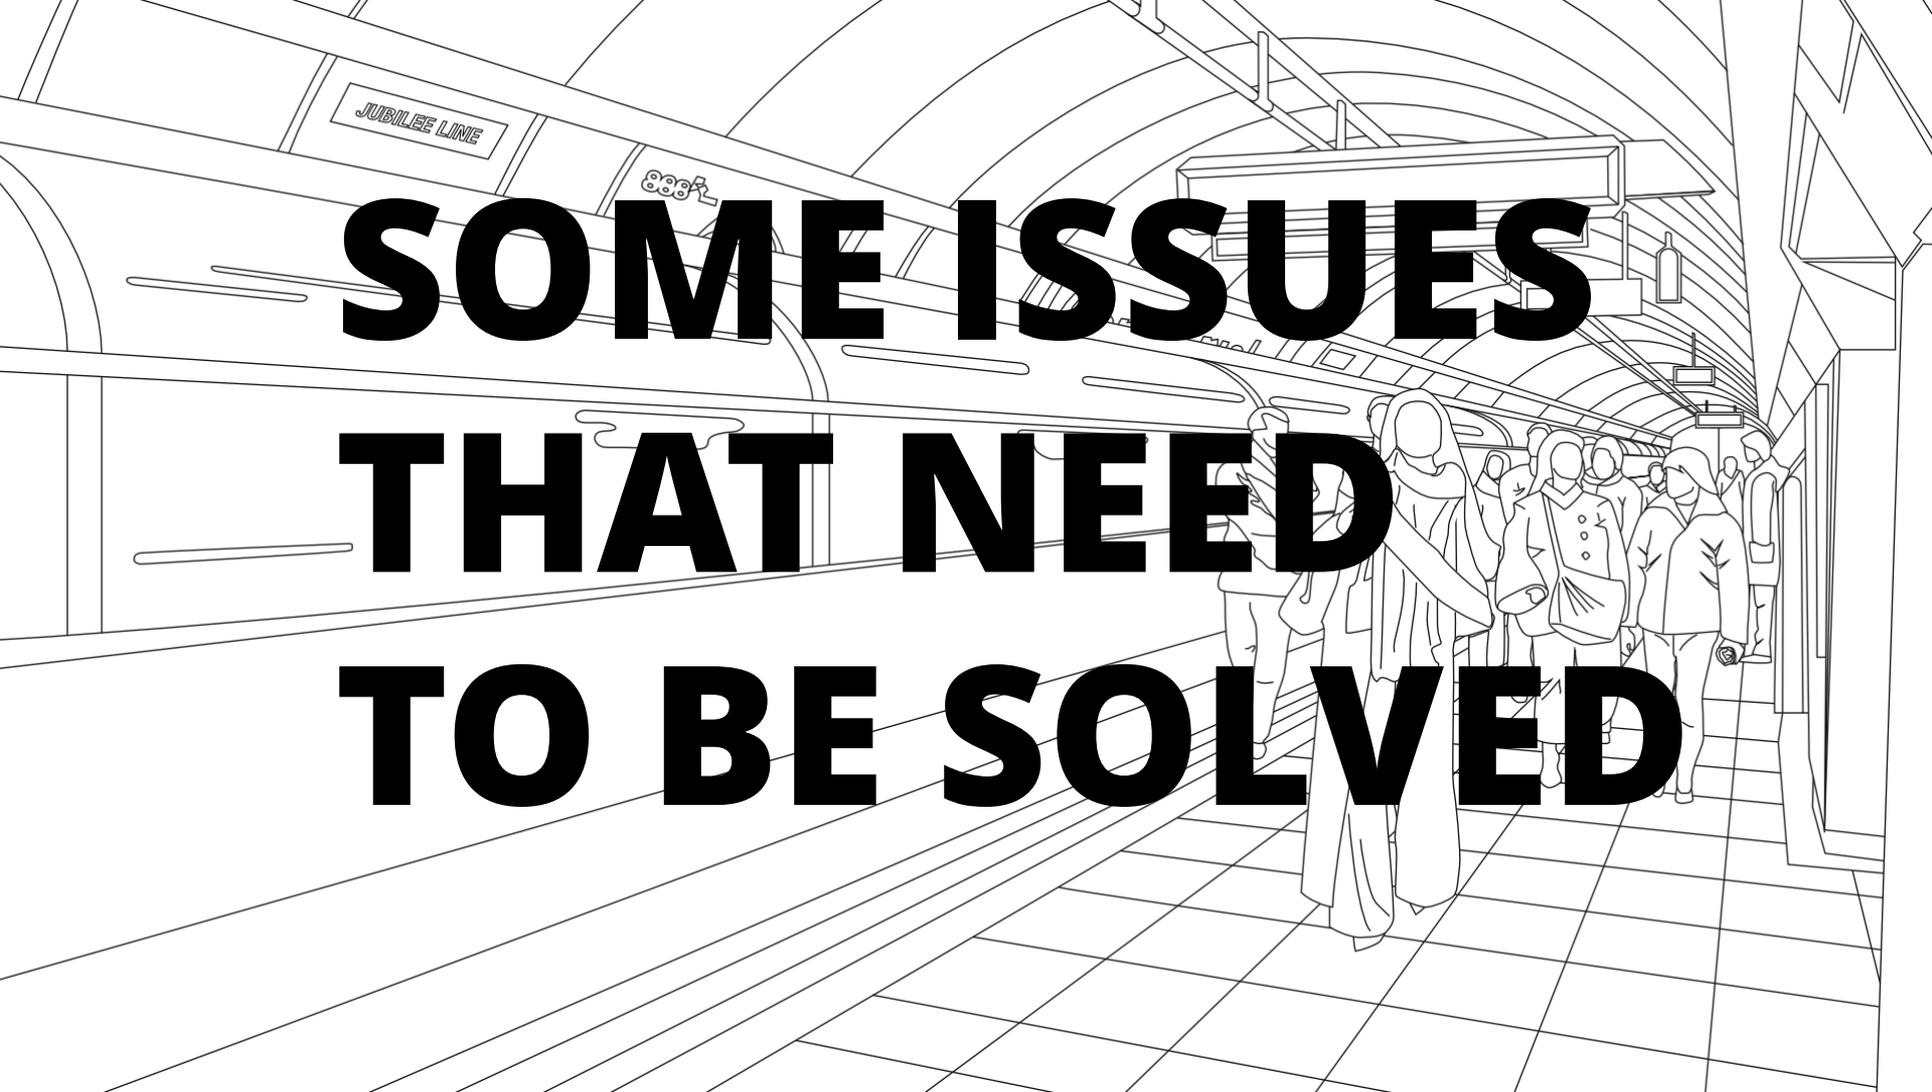

**computers begin to be inseperably weaved  
into the fabric of our physical reality**

“Machines that fit the human environment, instead of forcing humans to enter theirs, will make using a computer as refreshing as taking a walk in the woods.”

*Mark Weiser, The Computer for the 21st Century, 1991*

**SOME ISSUES  
THAT NEED  
TO BE SOLVED**

# **ISSUE #1**

“If I don’t want to be tracked, I switch off my phone.”

*a friend, on how to use smartphones and stay private*

# **AMBIENT INTELLIGENCE WON'T COME WITH A POWER BUTTON**

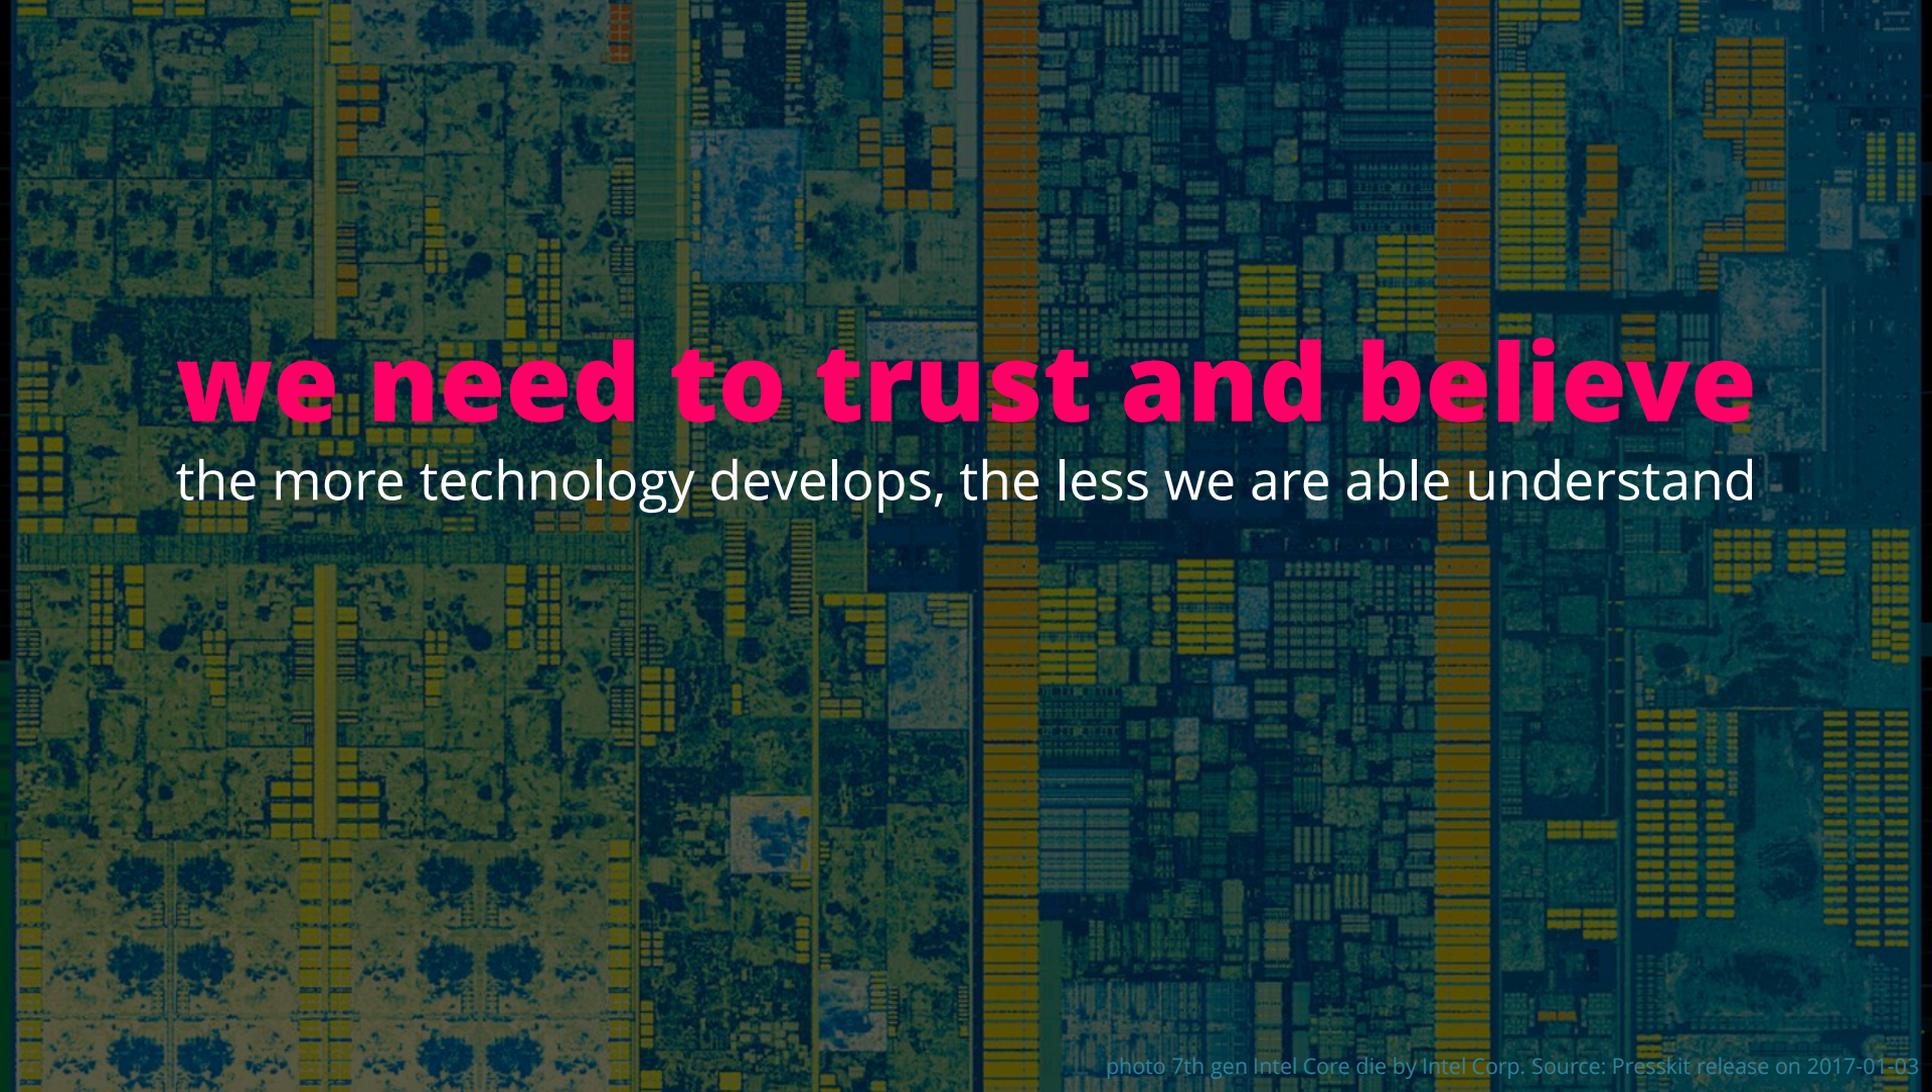

A close-up of a man's face wearing a space helmet. The visor is highly reflective, showing a distorted, wavy reflection of the man's face. The man has a wide-eyed, intense expression. The background is dark, suggesting a space environment.

# **WHAT MEANS OF CONTROL CAN BE ESTABLISHED**

If shutting down is no option anymore?

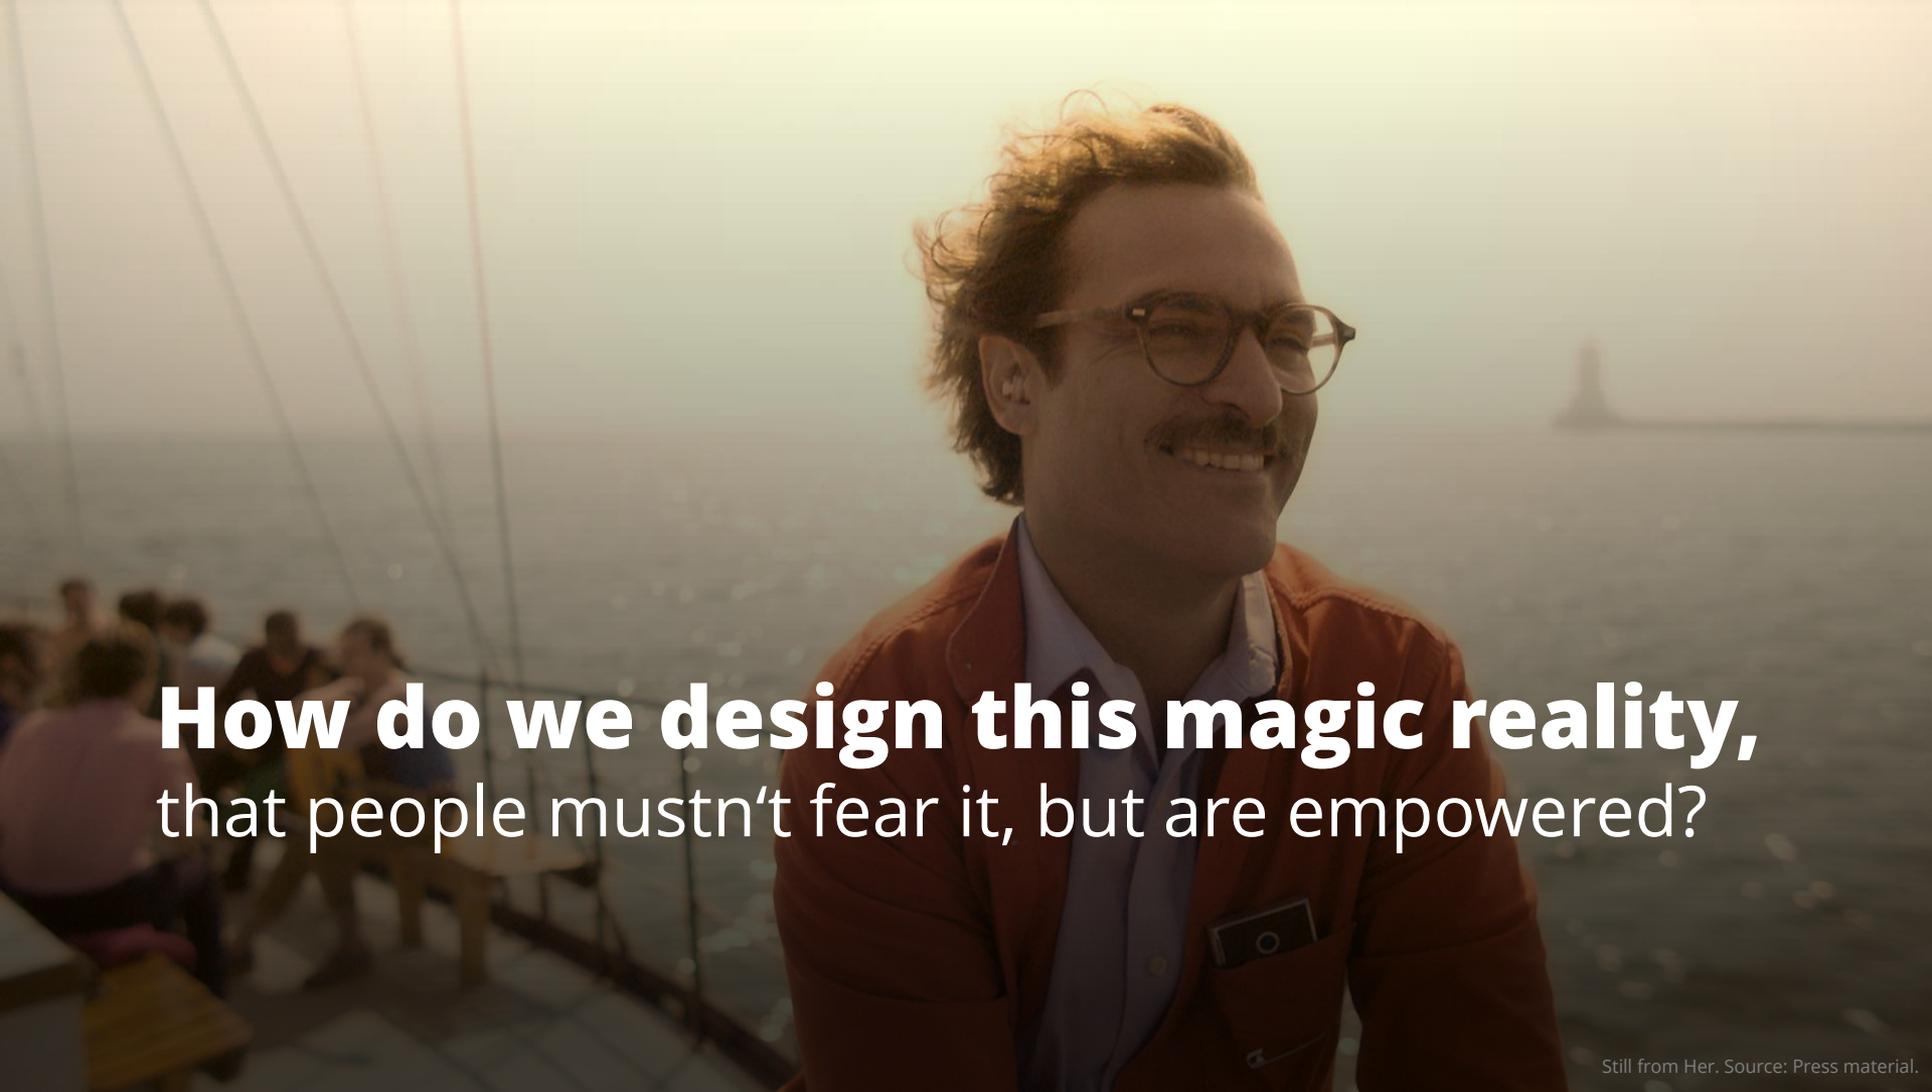

# **ISSUE #2**

**we need to trust and believe**  
the more technology develops, the less we are able understand

“Any sufficiently advanced technology  
is indistinguishable from magic.”

*Arthur C. Clarke, Hazards of Prophecy, 1962*

A man with glasses and a mustache, wearing a red jacket, is smiling and looking to the right. He is on a boat deck, with the sea and a lighthouse visible in the background. The scene is lit with warm, golden light from the setting sun. In the background, other people are visible on the deck, and a lighthouse is visible on the horizon.

**How do we design this magic reality,**  
that people mustn't fear it, but are empowered?

# **ISSUE #3**

# **decisions and setups all the time**

may it be an app, a website, a washing machine or else

**teaching and answering computers**  
is a sisyphian task already

HOW CAN WE AVOID

**INTERACTION  
OVERLOAD**

?

# **ISSUE #4**

**the IoT is dissolving our places**  
and meanings of the physical world

**How must we architect the virtual dimension of things and places, that our perception of reality won't be broken?**

# **ISSUE #5**

**mass surveillance is a reality**

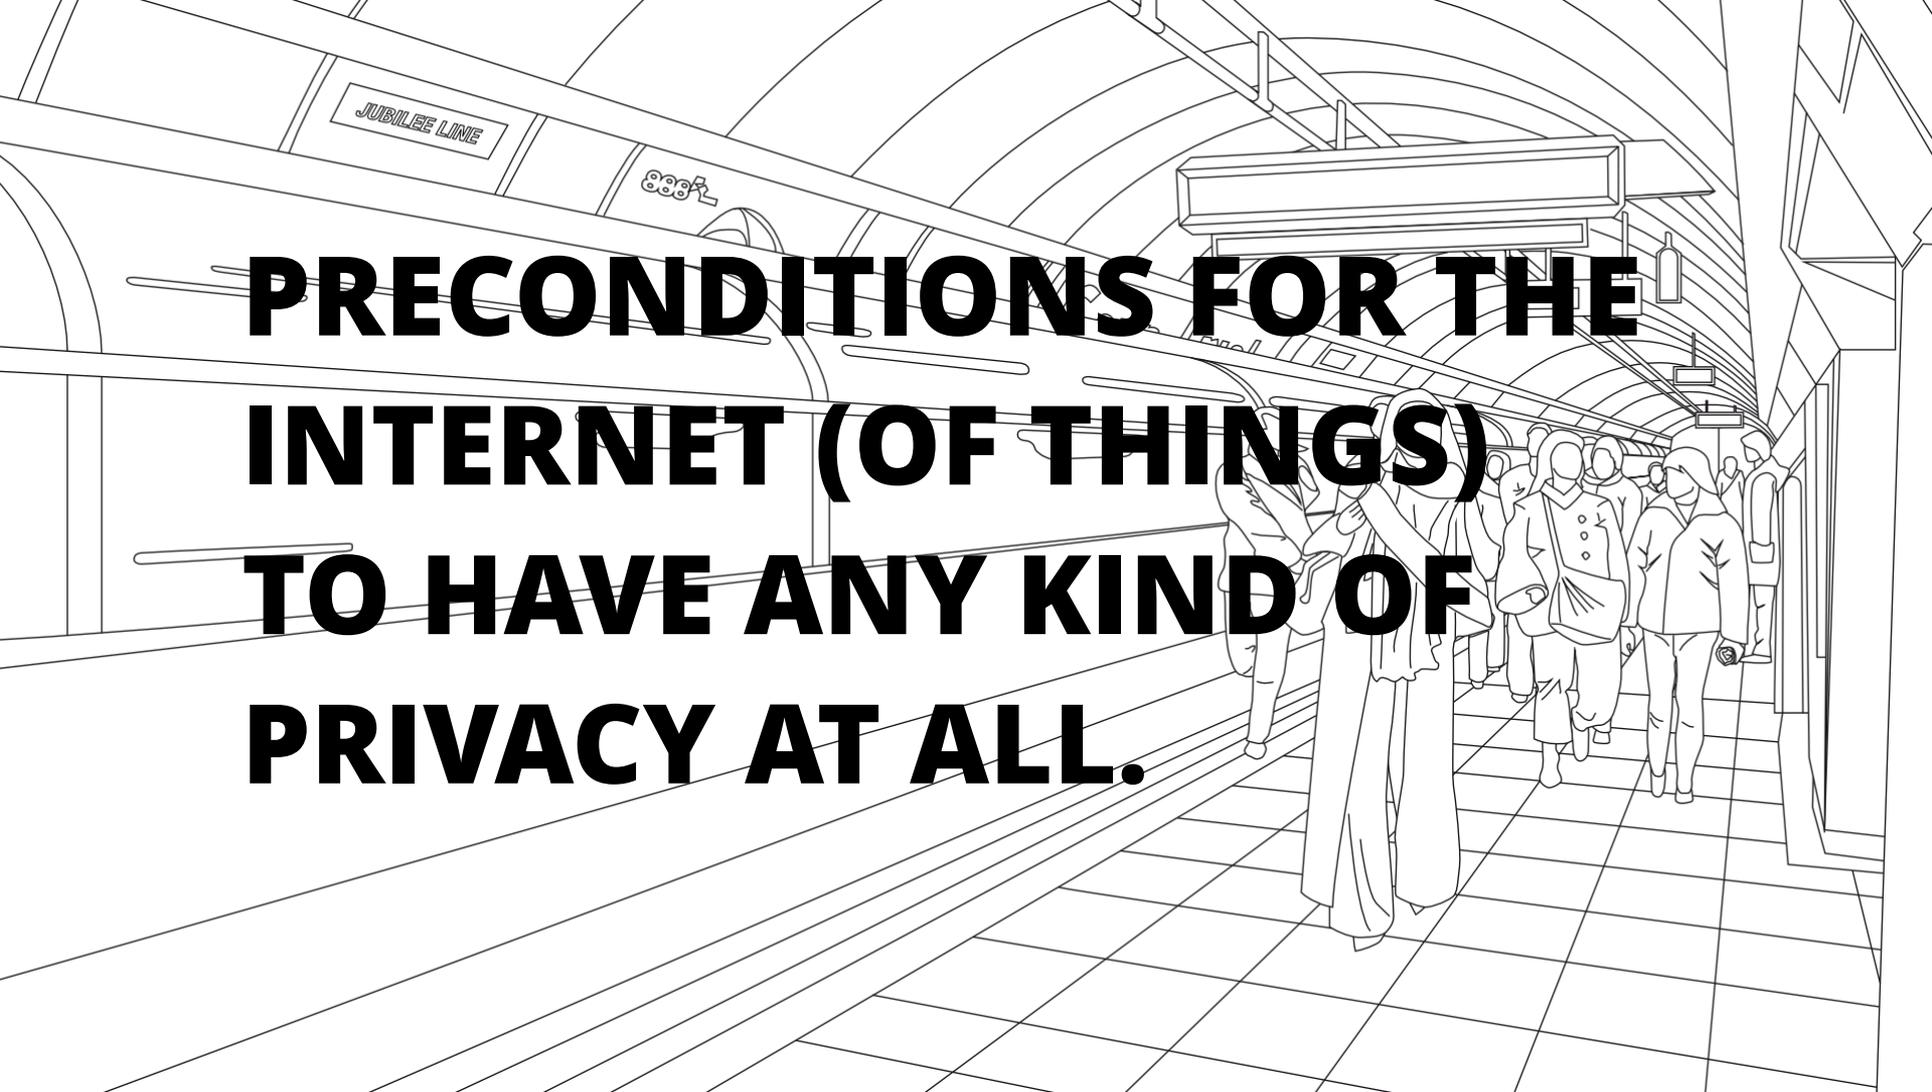

and those in control are not willing to let it go

# **WE LACK BALANCE**

between individual interests and those of corporations, governments and the public

**HOW CAN WE ESTABLISH A FAIR BALANCE,**  
instead of increasing the inequality?

**PRECONDITIONS FOR THE  
INTERNET (OF THINGS)  
TO HAVE ANY KIND OF  
PRIVACY AT ALL.**

**TECHNOLOGY**

**MUST BE**

**SECURE**

**THE NETWORK**

**MUST BE**

**PUBLIC**

**EVERYTHING**

**MUST BE**

**IDENTIFIABLE**

**COMMUNICATION**

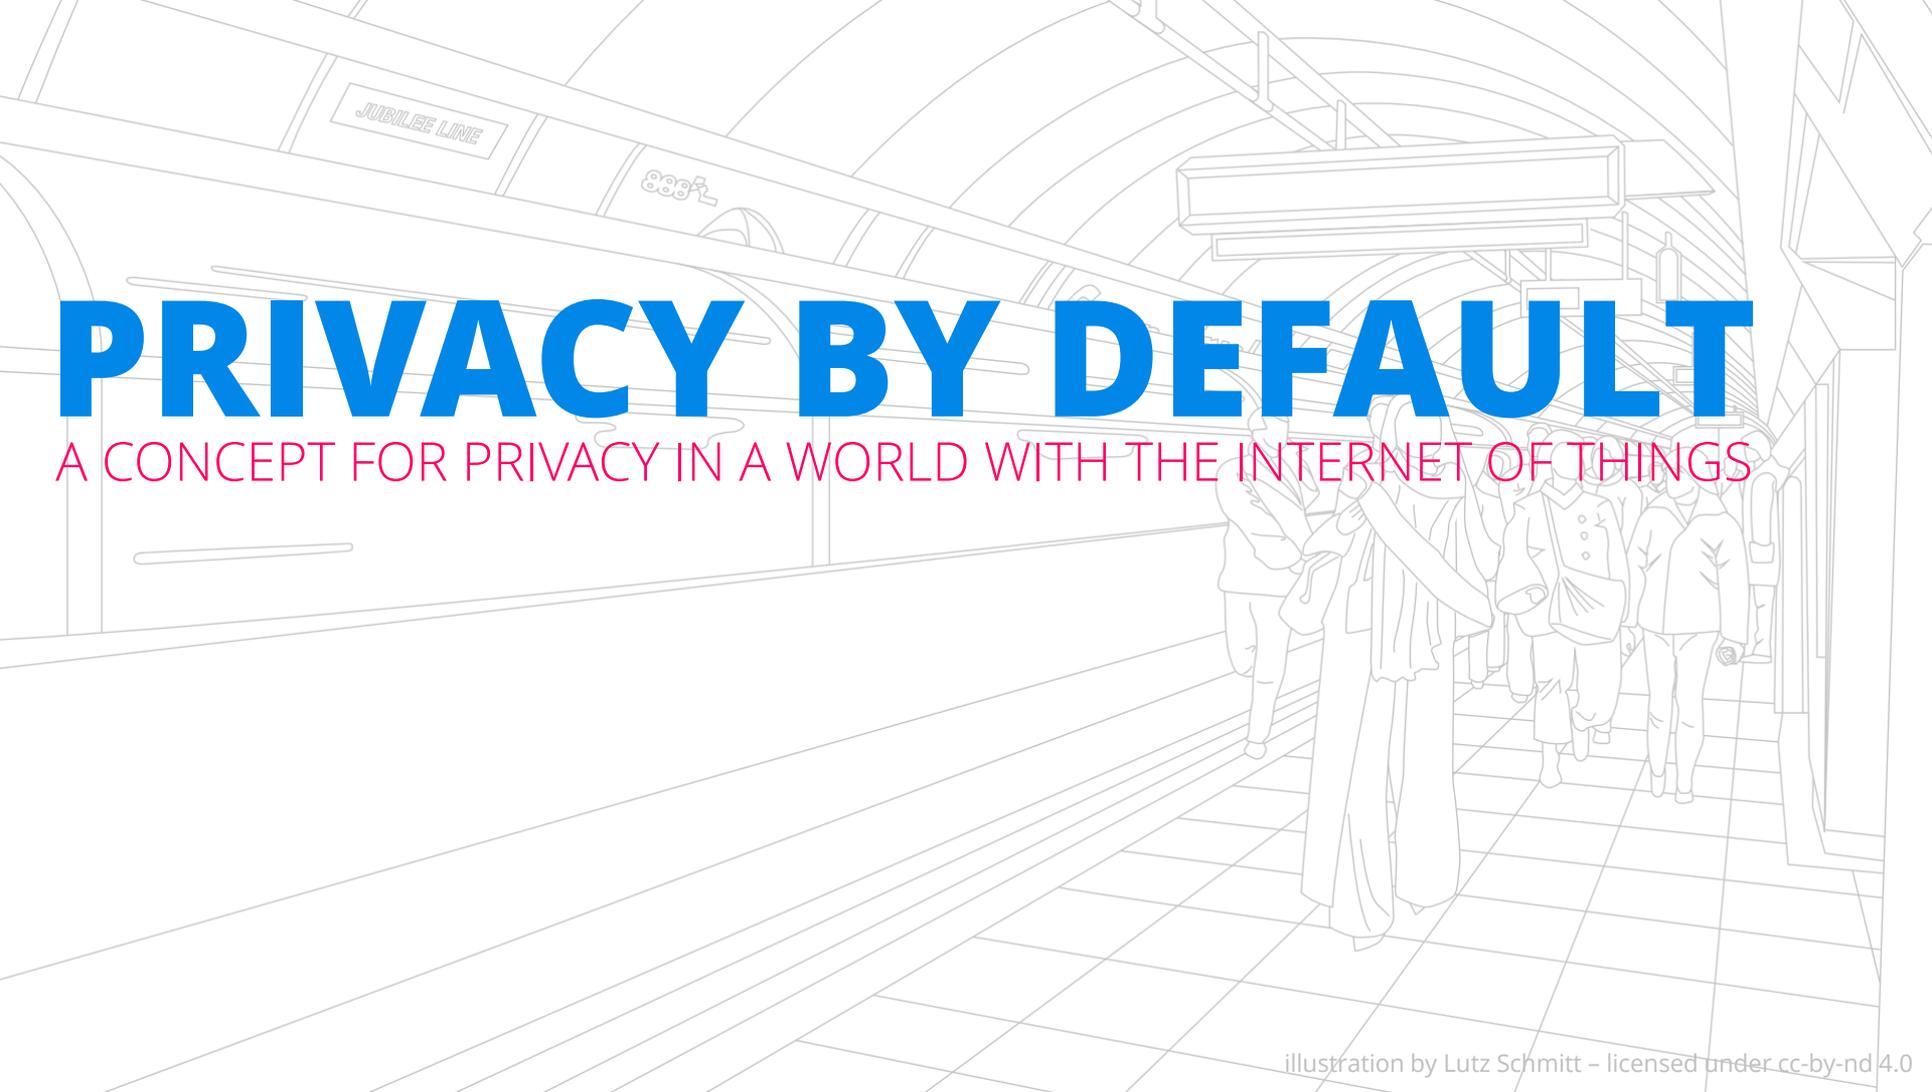

**MUST BE**

**REFUSABLE**

**A PERSON'S INTENT**

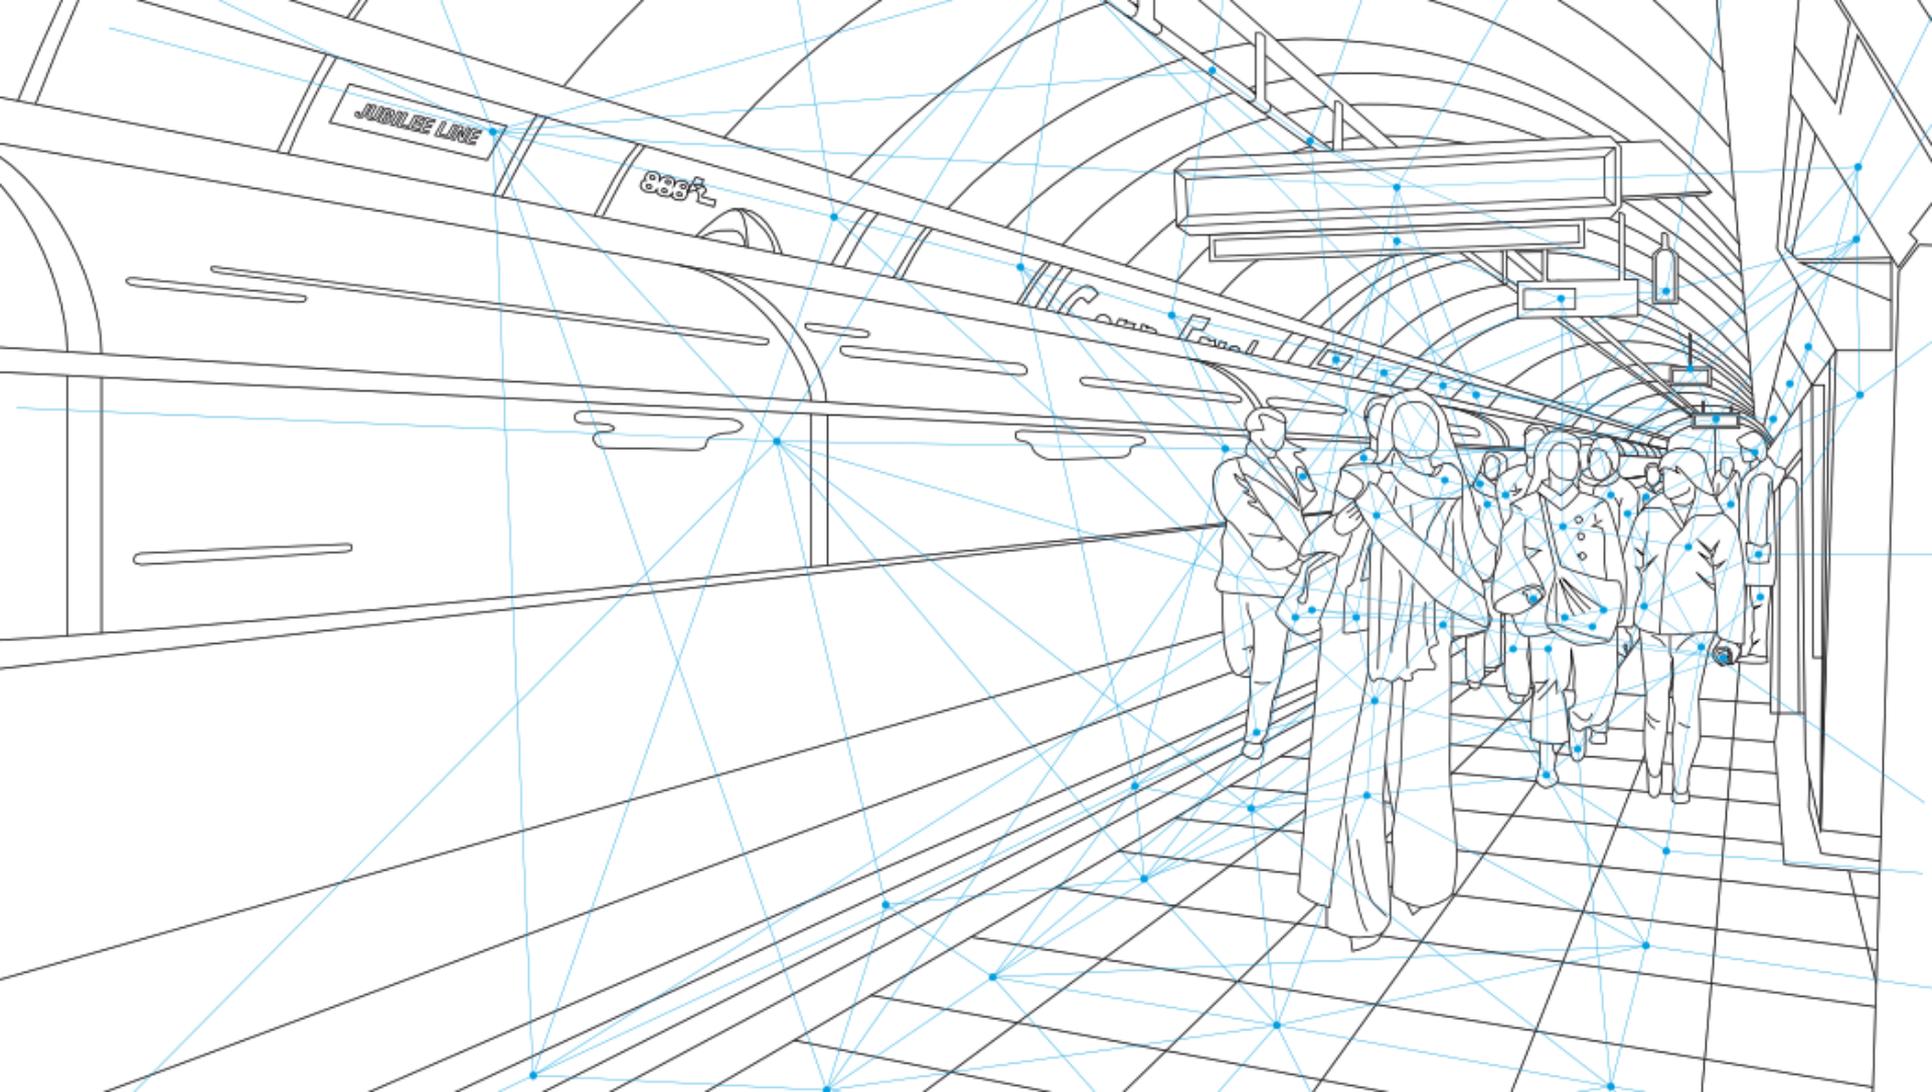

**MUST BE**

**KNOWN**
